### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Hughes on 1/25/05.

The application has been amended as follows:

(Note: In the previous Notice of Allowance, Examiner has already renumbered original claim number 16 as finally-numbered claim 15, and original claim number 18 as finally-numbered claim 16, so the following Examiner's Amendment will refer to Examiner's renumbered finally-numbered claim numbers 15 and 16.)

1) In finally-numbered claim 16, line 1, "17" has been changed to --15--.

2. The following is an examiner's statement of reasons for allowance:

1) The reasons for allowance are implicitly shown throughout the prosecution history. Additionally, US patent 5,738,323 discloses a similar sensor mounting structure directed to returnable, flexible mounting of a positioning sensor in manufacturing or work-piece environments allowing for movement of the positioning sensor out of the way to allow access to underlying components or work objects, after which the positioning sensor can be returned to its

Art Unit: 2632

original mounting position via the flexible element as specified by its disclosure, which is different from and does not sufficiently provide suggestion for the claimed flexible mounting of an electric garage door opener sensor of similar mounting structure where inadvertent collisions or other physical encounters with the sensor structure would not knock the sensor out of alignment that would cause malfunctioning of the sensing operation as recognized by Applicant. The claimed invention specifically addresses the problems encountered by the electric garage door opener sensor in its environment as recognized by Applicant, and is therefore not taught or suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Benjamin C. Lee whose telephone number is (571) 272-2963. The examiner can normally be reached on Mon -Fri 11:00Am-7:30Pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Daniel Wu can be reached on (571) 272-2964. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
